LEE HIGH SCHOOL – JONESVILLE, VA – 2011
High school degree with some college credits.

MOUNTAIN EMPIRE COMMUNITY COLLEGE – BIG STONE GAP, VA – PENDING
Associate's degree in software development.

COMMUNICATION

Communication and collaboration are strong points of mine. I can shift from a solo workflow to one that deals with feedback and input from others as well as offering the opportunity for my own input with ease. I enjoy explaining concepts to others – be it in an academic effort, or a utilitarian one. Taking every opportunity to learn from the knowledge and expertise of others is also something I do with enthusiasm.

LEADERSHIP

Within my skills and abilities, I will take charge of any project under my care by conducting team members' aptitudes in a synergetic way with the belief that doing so may sometime mean replacing myself with another more qualified for a leadership role for the project in question.
